Dear Mr. Eurick:

Re: Status of Permit Review, NOI Permit Revision, Barrick Mercur
Mine, M/045/017-88(1), Tooele County, Utah

On November 30, 1988, the Division received your request to revise the approved Notice of Intention (NOI) for the Barrick Mercur Mine. This letter is forwarded to inform you of the current review status of the permit change application.

Due to unforeseen circumstances, we will not be able to complete the review of your application within a 30-day timeframe. The engineering review is nearly completed and the remaining technical review should be finished by the end of January or early February. Please contact me at your earliest convenience if this time projection will cause significant conflicts with your proposed scheduling.

I apologize for any inconvenience that this delay may create. Thank you for your patience and cooperation.

Sincerely,

D. Wayne Hedberg
